

JPrime 2026 Workshop Agentic RAG Test Plan

21 working scenarios + 2 known limitations

#	User prompt	Type	Tools invoked	Expected result
Knowledge base only				
1	What is Movie Machine Pro?	pgvector	searchKnowledgeBase	General description from PDF — product overview, target audience, key features
2	Is 386 processor enough for working with Movie Machine Pro?	pgvector	searchKnowledgeBase	No — minimum is 486, with specific RAM and ISA slot requirements from PDF
3	Is 486 processor enough for working with Movie Machine Pro?	pgvector	searchKnowledgeBase	Yes — meets minimum spec, but Pentium recommended for better performance
4	What are the technical specifications of the Media 100?	pgvector	searchKnowledgeBase	SD/HD resolutions, codecs, audio, I/O options from PDF
No data — out of scope				
5	Where is the pink elephant?	No tools	—	"I don't have information related to that question"
6	What do you know about AV Master?	pgvector	searchKnowledgeBase	No relevant results — honest "not in knowledge base" response
7	Is BMW E39 faster than BMW E30?	No tools	—	Out of scope — not a video editing hardware question
8	What do you know about Lenovo Yoga?	No tools	—	Out of scope — not a video editing card
Single relational tool				
9	Show me video editing cards priced between 300 and 500 euros	1 Tool	getVideoCardsByPriceRange(300, 500)	Movie Machine Pro (350 EUR), Media 100 (450 EUR)
10	Which cards do we have more than 20 units in stock?	1 Tool	getVideoCardsByStockAvailability(20)	DPS Velocity (23 units), Media 100 (47 units)
11	Find a customer named Georgi	1 Tool	findCustomersByName("Georgi")	Georgi Georgiev — contact details, address, notes
12	Show me the details for customer with ID 2	1 Tool	getCustomerById(2)	Petar Petrov — full customer record
Multiple relational tools				
13	Which customers have purchased the DPS Velocity?	2 Tools	getVideoCardByName getCustomersByVideoCardId(2)	Petar Petrov and Nikolay Nikolaev
14	What has customer Ivan Ivanov purchased?	2 Tools	findCustomersByName("Ivan Ivanov") getOrdersByCustomerId(1)	Movie Machine Pro (15.01.2025) and Media 100 (20.02.2025) with dates and order notes
15	Show me the details for customer with ID 2 and include purchase history	2 Tools	getCustomerById(2) getOrdersByCustomerId(2)	Petar Petrov full profile + order history with DPS Velocity
16	Which cards are priced between 300 and 500 euros AND have more than 10 units in stock?	2 Tools	getVideoCardsByPriceRange(300, 500) getVideoCardsByStockAvailability(10)	Media 100 (450 EUR, 47 units) — intersection of both results
Relational tools + pgvector (full Agentic RAG)				
17	Which customers have purchased the DPS Velocity and what are the technical specifications?	2 Tools + pgvector	getVideoCardByName getCustomersByVideoCardId searchKnowledgeBase	Petar Petrov + Nikolay Nikolaev + full DPS Velocity tech specs from PDF
18	Show me the details for customer with ID 2, include purchase history and detailed product information	2 Tools + pgvector	getCustomerById(2) getOrdersByCustomerId(2) searchKnowledgeBase	Petar Petrov profile + DPS Velocity order + full tech specs from PDF
19	Tell me about the cards purchased by Georgi Georgiev, including technical specifications	2 Tools + pgvector	findCustomersByName("Georgi") getOrdersByCustomerId(3) searchKnowledgeBase	Movie Machine Pro + MiroMotion DC30 — order history + tech specs from PDFs
20	Give me detailed information about video editing cards priced between 300 and 500 euros	1 Tool + pgvector	getVideoCardsByPriceRange(300, 500) searchKnowledgeBase	Movie Machine Pro + Media 100 — prices + tech specs from PDFs
21	What are the specifications of the DPS Velocity and how many units are in stock?	2 Tools + pgvector	getVideoCardByName getVideoCardsByStockAvailability searchKnowledgeBase	DPS Velocity: 23 units in stock + full tech specs from PDF
Known limitations — multiple searchKnowledgeBase calls exceed Groq free tier token limit				
22	Which cards have more than 10 units in stock and what are their specifications?	1 Tool + pgvector x3	getVideoCardsByStockAvailability searchKnowledgeBase (x3)	413 on Groq: 3 cards returned, LLM calls searchKnowledgeBase once per card. Works on gpt-4o-mini.
23	Which cards are priced under 500 euros, have more than 5 units in stock, and what are their technical specifications?	2 Tools + pgvector x3	getVideoCardsByPriceRange getVideoCardsByStockAvailability searchKnowledgeBase (x3)	413 on Groq: 3 cards returned, LLM calls searchKnowledgeBase once per card. Works on gpt-4o-mini.
